

EARLY Q1 DISCOUNT FOR PURVEYORS OF GOURMET FOOD PRODUCTS—20%!

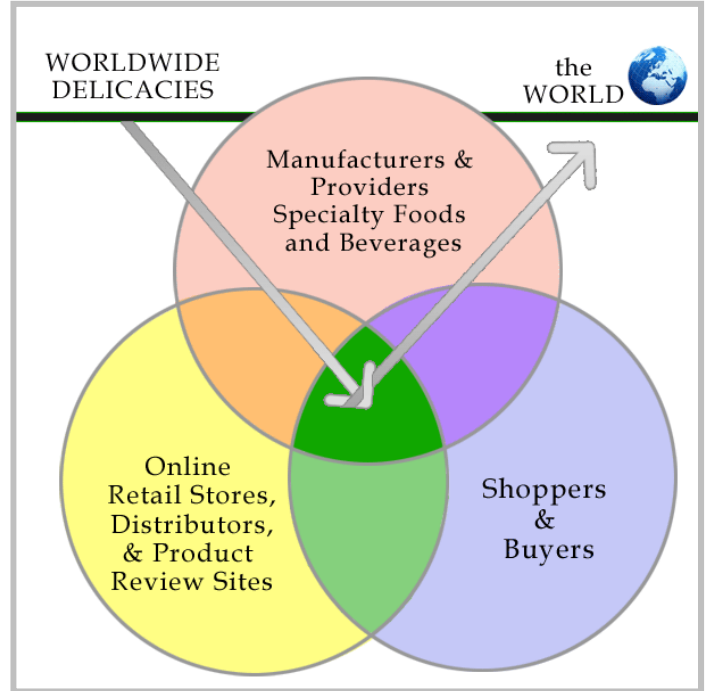

WorldwideDelicacies.com, with the help of our team of experts in the culinary field, provides straightforward evaluations about specialty food products for gourmet companies and consumers.

Q: Why you should have your food product reviewed by the food experts at WorldwideDelicacies?:

*More than ever, consumers are relying heavily on making purchasing decisions based on recommendations from other product users—in marketing terms, reviews increase shopper conversions to buyers by **200 – 550%**.*

But we provide more than just reviews...

WWD extends the reach of these reviews and testimonials by weaving them into journalistic articles that are then published on our websites, blogs, newsletters, Google Gadgets and Maps, and a wide array of social media. Before long, these articles appear on websites that collectively have over 50 million visitors every month... Typically, the cost to the manufacturer is less than two pennies per thousand viewers. (\$0.02 CPM).
